3. Robbie Bentley

Bristol will look to have a new Bus Station developed next to Temple Meads Station as part of the recent announcement of funding to redevelop the area around it.

In light of the need to have a comprehensive and integrated provision of buses, rail and

potential future Underground services, Is it not necessary to have a thought about the number of locations that currently have no direct service to Temple Meads.

We Need to have a consultation as part of this redevelopment under Transport & Works Act rules as part of this development. I formally propose to have this as a broader conversation about what we feel needs to be done to solve the critical issues we have in terms of our current transport strategy. We also need to consider how we might attract future PT investment into BCR in light of the recent collapse of HCT.

Bristol deserves to have a World Class railway station served by a World Class Public Transport service that meets the needs of all our constituents.

4. Brendon Taylor - Bristol disability equities forum

Please note that since the withdrawn of bus service 178 .

I think the only way forward in the Greater Bristol Bath city region and North Somerset council area will be bus Franchising. With the mayor.

But need a political discussion can I leave this issue for you to discuss with Transporta buses and big Lemon buses

and the west of England mayoral combined transport Authority and North Somerset council

That on behalf of South Gloucestershire council Banes and city and county of Bristol.

And the bus service improvements plan with North Somerset council.

The present Somerset and Gloucestershire Greater Bristol and Bath city region bus cut were reviewed and agreed by the Department for transport in the covid 19 bus operator recovery grant covid review.
