The decision on final application and announcement of funding awards will be February 2019. Applications will be jointly assessed by Cabinet Office, the LGA and MHCLG against six criteria. This includes; meeting pre-selection criteria, strength of partnership arrangements (all), track record of delivery (existing partnerships), project plans and deliverability, innovation and delivery of targeted sites, and value for money, including schedule of costs and benefits
8. Cabinet Office have expressed that bids should build on those submitted previously at Wave 6 and should come therefore as a joint West of England proposal. WECA will submit the OPE7 bid on behalf of the four Unitary Authorities and be the accountable body for it.
9. The theme of the OPE7 bidding process is housing delivery. The scope of the bid is exploring how the Partnership can best utilise public assets and innovation to deliver housing and securing wider outcomes including more affordable homes for specialist housing groups.

13. There are no direct implications arising from this report. Any risks will be reviewed through the Joint Assets Board.

Public Sector Equality Duties:

14. The public sector equality duty created under the Equality Act 2010 means that public authorities must have due regard to the need to:
 - Eliminate unlawful discrimination, harassment and victimization and other conduct prohibited by the Act.
 - Advance equality of opportunity between people who share a protected characteristic and those who do not.
 - Foster good relations between people who share a protected characteristic and those who do not.
15. The Act explains that having due regard for advancing equality involves:
 - Removing or minimizing disadvantages suffered by people due to their protected characteristics.
 - Taking steps to meet the needs of people from protected groups where these are different from the needs of other people.
 - Encouraging people from protected groups to participate in public life or in other activities where their participation is disproportionately low.
16. The general equality duty therefore requires organisations to consider how they could positively contribute to the advancement of equality and good relations. It requires equality considerations to be reflected in the design of policies and the delivery of services, including policies, and for these issues to be kept under review.
17. There are no direct implications arising from this report.
