This paper provides the Audit Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a combined authority; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Audit Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications www.grantthornton.co.uk ..

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Progress at February 2019

Financial Statements Audit

We have started planning for the 2018/19 financial statements audit and have issued a detailed audit plan, setting out our proposed approach to the audit of the Authority's 2018/19 financial statements.

We are due to commence our interim audit in March 2019. Our interim fieldwork visit will include:

- Updated review of the Authority's control environment
- Updated understanding of financial systems
- Review of Internal Audit reports on core financial systems
- Early work on emerging accounting issues
- Early substantive testing

We will report any findings from the interim audit to you in our Progress Report at the April Audit committee.

The statutory deadline for the issue of the 2018/19 opinion is 31 July 2019. We will discuss our plan and timetable with officers.

The final accounts audit is due to begin in July with findings reported to you in the Audit Findings Report by the deadline of 31 July 2019.

Value for Money

The scope of our work is set out in the guidance issued by the National Audit Office. The Code requires auditors to satisfy themselves that; "the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources".

The guidance confirmed the overall criterion as: "in all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people".

The three sub criteria for assessment to be able to give a conclusion overall are:

- Informed decision making
- Sustainable resource deployment
- Working with partners and other third parties

Details of our initial risk assessment to determine our approach are included in our Audit Plan. This is included as a separate agenda item.

We will report our work in the Audit Findings Report and give our Value For Money Conclusion by the deadline in July 2019.

Other areas

Meetings

We met with the Director of Investment and Corporate Services in January as part of our quarterly liaison meetings and continue to be in discussions with finance staff regarding emerging developments and to ensure the audit process is smooth and effective.

Events

We provide a range of workshops, along with network events for members and publications to support the Combined Authority.

Our annual accounts workshop is to take place in February 2019 and we have invited key members of your finance team to this.

Further details of the publications that may be of interest to the Combined Authority are set out in our Sector Update section of this report.

Audit Deliverables

2018/19 Deliverables	Planned Date	Status
Fee Letter Confirming audit fee for 2018/19.	April 2018	Complete
Accounts Audit Plan We are required to issue a detailed accounts audit plan to the Audit Committee setting out our proposed approach in order to give an opinion on the Combined Authority's 2018-19 financial statements.	January 2019	Presented as separate item
Interim Audit Findings We will report to you the findings from our interim audit and our initial value for money risk assessment within our Progress Report.	April 2019	Not yet due
Audit Findings Report The Audit Findings Report will be reported to the July Audit Committee.	July 2019	Not yet due
Auditors Report This is the opinion on your financial statement, annual governance statement and value for money conclusion.	July 2019	Not yet due
Annual Audit Letter This letter communicates the key issues arising from our work.	August 2019	Not yet due

Sector Update

Local government bodies are tackling a continuing drive to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider Local Government and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

- **Insights from local government sector specialists**
- **Reports of interest**
- **Accounting and regulatory updates**

Public Sector Audit Appointments – Report on the results of auditors’ work 2017/18

This is the fourth report published by Public Sector Audit Appointments (PSAA) and summarises the results of auditors’ work at 495 principal local government and police bodies for 2017/18. This will be the final report under the statutory functions from the Audit Commission Act 1998 that were delegated to PSAA on a transitional basis.

The report covers the timeliness and quality of financial reporting, auditors’ local value for money work, and the extent to which auditors used their statutory reporting powers.

For 2017/18, the statutory accounts publication deadline came forward by two months to 31 July 2018. This was challenging for bodies and auditors and it is encouraging that 431 (87 per cent) audited bodies received an audit opinion by the new deadline.

The most common reasons for delays in issuing the opinion on the 2017/18 accounts were:

- technical accounting/audit issues;
- various errors identified during the audit;
- insufficient availability of staff at the audited body to support the audit;
- problems with the quality of supporting working papers; and
- draft accounts submitted late for audit.

All the opinions issued to date in relation to bodies’ financial statements are unqualified, as was the case for the 2016/17 accounts. Auditors have made statutory recommendations to three bodies, compared to two such cases in respect of 2016/17, and issued an advisory notice to one body.

The number of qualified conclusions on value for money arrangements looks set to remain relatively constant. It currently stands at 7 per cent (32 councils, 1 fire and rescue authority, 1 police body and 2 other local government bodies) compared to 8 per cent for 2016/17, with a further 30 conclusions for 2017/18 still to be issued.

The most common reasons for auditors issuing qualified VFM conclusions for 2017/18 were:

- the impact of issues identified in the reports of statutory inspectorates, for example Ofsted;
- corporate governance issues;
- financial sustainability concerns; and
- procurement/contract management issues.

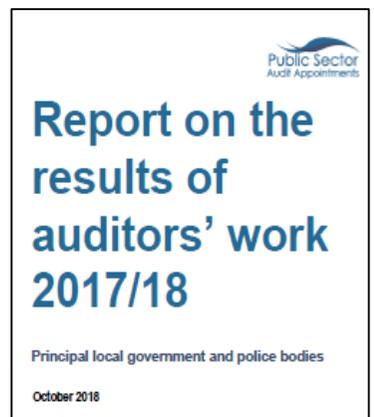

The report is available on the PSAA website:

<https://www.psa.co.uk/audit-quality/reports-on-the-results-of-auditors-work/>

PSAA Report

Challenge question:

Has your Authority identified improvements to be made to the 2018/19 financial statements audit and Value for Money Conclusion?

National Audit Office – Local auditor reporting in England 2018

The report describes the roles and responsibilities of local auditors and relevant national bodies in relation to the local audit framework and summarises the main findings reported by local auditors in 2017-18. It also considers how the quantity and nature of the issues reported have changed since the Comptroller & Auditor General (C&AG) took up his new responsibilities in 2015, and highlights differences between the local government and NHS sectors.

Given increasing financial and demand pressures on local bodies, they need strong arrangements to manage finances and secure value for money. External auditors have a key role in determining whether these arrangements are strong enough. The fact that only three of the bodies (5%) the NAO contacted in connection with this study were able to confirm that they had fully implemented their plans to address the weaknesses reported suggests that while auditors are increasingly raising red flags, some of these are met with inadequate or complacent responses.

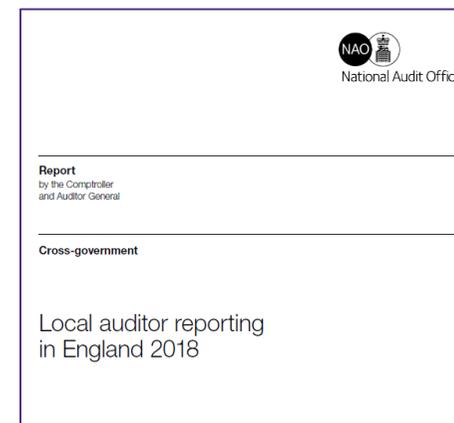

Qualified conclusions on arrangements to secure value for money locally are both unacceptably high and increasing. Auditors qualified their conclusions on arrangements to secure value for money at an increasing number of local public bodies: up from 170 (18%) in 2015-16 to 208 (22%) in 2017-18. As at 17 December 2018, auditors have yet to issue 20 conclusions on arrangements to secure value for money, so this number may increase further for 2017-18.

The proportion of local public bodies whose plans for keeping spending within budget are not fit-for-purpose, or who have significant weaknesses in their governance, is too high. This is a risk to public money and undermines confidence in how well local services are managed. Local bodies need to demonstrate to the wider public that they are managing their organisations effectively, and take local auditor reports seriously. Those charged with governance need to hold their executives to account for taking prompt and effective action. Local public bodies need to do more to strengthen their arrangements and improve their performance.

Local auditors need to exercise the full range of their additional reporting powers, where this is the most effective way of highlighting concerns, especially where they consider that local bodies are not taking sufficient action. Departments need to continue monitoring the level and nature of non-standard reporting, and formalise their processes where informal arrangements are in place. The current situation is serious, with trend lines pointing downwards.

The report is available on the NAO website:

<https://www.nao.org.uk/report/local-auditor-reporting-in-england-2018/>

NAO Report

Challenge question:

Has your Authority responded appropriately to any concerns or issues raised in the External Auditor's report for 2017/18?

National Audit Office – Local authority governance

The report examines whether local governance arrangements provide local taxpayers and Parliament with assurance that local authority spending achieves value for money and that authorities are financially sustainable.

Local government has faced considerable funding and demand challenges since 2010-11. This raises questions as to whether the local government governance system remains effective. As demonstrated by Northamptonshire County Council, poor governance can make the difference between coping and not coping with financial and service pressures. The Department (Ministry of Housing, Communities and Local Government) places great weight on local arrangements in relation to value for money and financial sustainability, with limited engagement expected from government. For this to be effective, the Department needs to know that the governance arrangements that support local decision-making function as intended. In order to mitigate the growing risks to value for money in the sector the Department needs to improve its system-wide oversight, be more transparent in its engagement with the sector, and adopt a stronger leadership role across the governance network

Not only are the risks from poor governance greater in the current context as the stakes are higher, but the process of governance itself is more challenging and complex. Governance arrangements have to be effective in a riskier, more time-pressured and less well-resourced context. For instance, authorities need to:

- maintain tight budgetary control and scrutiny to ensure overall financial sustainability at a time when potentially contentious savings decisions have to be taken and resources for corporate support are more limited; and
- ensure that they have robust risk management arrangements in place when making commercial investments to generate new income, and that oversight and accountability is clear when entering into shared service or outsourced arrangements in order to deliver savings.

Risk profiles have increased in many local authorities as they have reduced spending and sought to generate new income in response to funding and demand pressures. Local authorities have seen a real-terms reduction in spending power (government grant and council tax) of 28.6% between 2010-11 and 2017-18. Demand in key service areas has also increased, including a 15.1% increase in the number of looked after children from 2010-11 to 2017-18. These pressures create risks to authorities' core objectives of remaining financially sustainable and meeting statutory service obligations. Furthermore, to mitigate these fundamental risks, many authorities have pursued strategies such as large-scale transformations or commercial investments that in themselves carry a risk of failure or under-performance.

The report is available on the NAO website:

<https://www.nao.org.uk/report/local-authority-governance-2/>

NAO Report

Challenge question:

Has your Authority got appropriate governance and risk management arrangements in place to address the risks and challenges identified in the NAO report?

ICAEW Report: expectations gap

The Institute of Chartered Accountants in England and Wales (ICAEW) has published a paper on the 'expectation gap' in the external audit of public bodies.

Context:

The expectation gap is the difference between what an auditor actually does, and what stakeholders and commentators think the auditors obligations might be and what they might do. Greater debate being whether greater education and communication between auditors and stakeholders should occur rather than substantial changes in role and remit of audit.

What's the problem?

• Short-term solvency vs. Longer-term value:

- LG & NHS: Facing financial pressures, oversight & governance pressures

• Limited usefulness of auditors reports: 'The VFM conclusion is helpful, but it is more about the system/arrangements in place rather than the actual effectiveness of value for money'

• Other powers and duties: implementing public interest reports in addition to VFM

• Restricted role of questions and objections: Misunderstanding over any objections/and or question should be resolved by the local public auditor. Lack of understanding that auditors have discretion in the use of their powers.

• Audit qualification not always acted on by those charged with governance: 'if independent public audit is to have the impact that it needs, it has to be taken seriously by those charged with governance'

• Audit committees not consistently effective: Local government struggles to recruit external members for their audit committees, they do not always have the required competencies and independence.

• Decreased audit fees: firms choose not to participate because considered that the margins were too tight to enable them to carry out a sufficient amount of work within the fee scales.

• Impact of audit independence rules: new independence rules don't allow for external auditors to take on additional work that could compromise their external audit role

• Other stakeholders expectations not aligned with audit standards

- **Increased auditor liability:** an auditor considering reporting outside of the main audit engagement would need to bill their client separately and expect the client to pay.

Future financial viability of local public bodies

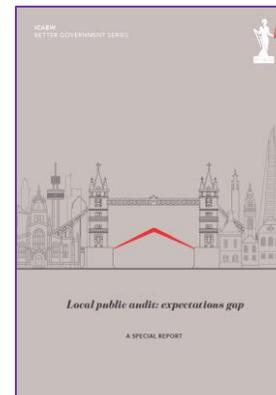

Local public bodies are being asked to deliver more with less and be more innovative and commercial. CFOs are, of course, nervous at taking risks in the current environment and therefore would like more involvement by their auditors. They want auditors to challenge their forward-looking plans and assumptions and comment on the financial resilience of the organisation..

The ICAEW puts forward two solutions:

Solution a) If CFO's want additional advisory work, rather than just the audit, they can separately hire consultants (either accountancy firms not providing the statutory audit or other business advisory organisations with the required competencies) to work alongside them in their financial resilience work and challenging budget assumptions.

Solution b) Wider profession (IFAC, IAASB, accountancy bodies) should consider whether audit, in its current form, is sustainable and fit for purpose. Stakeholders want greater assurance, through greater depth of testing, analysis and more detailed reporting of financial matters. It is perhaps, time to look at the wider scope of audit. For example, could there be more value in auditors providing assurance reports on key risk indicators which have a greater future-looking focus, albeit focused on historic data?

More information can be found in the link below (click on the cover page)

The expectations gap

Challenge question:

How effectively is the audit meeting client expectations?
